

## JOYCE NILO LEED® AP PRINCIPAL

Joyce Nilo joined K2A in 1996 and has more than nineteen years of professional architectural experience in design, production and management of institutional and educational buildings. As principal, Joyce is responsible for providing direct supervision over projects. You can count on Joyce's unwavering attention to detail, and her clear and direct communication. She is a hands-on leader and takes on the day-to-day responsibilities of projects, including consultant coordination and is the daily client contact. She ensures that all programmatic requirements are properly documented and accounted for.

### EDUCATION

Bachelor of Arts in Architecture, University of California Berkeley, 1994

### REGISTRATION

Licensed Architect of California, License number C34184; USGBC LEED Accredited Professional

### REPRESENTATIVE EXPERIENCE, partial list

#### **San Francisco International Airport As-Needed A/E, San Francisco, CA**

Project Manager for architectural and engineering services on an as-needed basis for projects at San Francisco International Airport (SFO). The scope of work includes architectural and interior design, as well as engineering and specialty consulting. Projects include Coast Guard Gate Repair, Superbay Hanger Fire Protection, and improvements to ERF.

#### **GSA Interior Design IDIQ, Region 9, San Francisco, CA**

Project Manager for multiple, simultaneous projects over three campuses ranging from 1,000 to 10,000 sf. Work includes office improvements, including combining suites, creating private offices, new system furniture, new paint and carpet, improved finishes, new doors, and restroom upgrades. Various projects are currently in various stages of design and construction.

#### **Willie L. Brown Jr. Middle School, San Francisco, CA**

Project Manager for a new \$44.6 million, 88,000 sf middle school for SFUSD. Created through a highly collaborative community-focused design process, the new, three-building campus includes a wellness center and fitness facility to serve the community. K2A is the bridging document architect for this design build project. Joyce continues to interface with the design builder throughout construction.

#### **Mission College Wellness & Human Performance Facility, Santa Clara, CA**

Project Manager for a new, 13,700 sf facility to support the physical education department programs. The project includes fitness and dance studios, weight training and specialized equipment lab for adaptive PE, as well as faculty offices and support space, including outdoor areas for fitness classes. Joyce led a comprehensive programming effort that included site visits to other facilities, field study of materials, and design charrettes with the users.

#### **SFUSD Measure A Bond Projects, San Francisco, CA**

The Bond Measure A modernization projects total over \$40 million, and focus on ADA Accessibility & Fire Life Safety upgrades. Joyce has direct client relations involving the coordination for Downtown High School, Spring Valley Elementary School, and Burnett Child Development Center.

#### **Presidio Middle School, San Francisco, CA**

Project Manager for a \$3.52 million modernization. This project included extensive accessibility, electrical, and technology upgrades negotiated with DSA. An outdated industrial arts wing was converted into six new science labs. The renovated auditorium includes new stage rigging, curtains and lighting.

#### **City College of San Francisco Community Wellness Center, San Francisco, CA**

LEED Professional for a new \$71 million, 156,000 sf academic athletic facility that includes a gymnasium, aquatics center, martial arts, yoga, aerobics studio, team and PE locker rooms, weight rooms, dance performance facility and faculty offices. This project is designed as a LEED® equivalent facility.
