

TYSON SCHWARTEN PROJECT MANAGER

Tyson has been with K2A since June 2007 and brings over a decade of professional architectural experience, with an emphasis on public construction projects. His knowledge extends from initial design through construction administration. As Project Manager, Tyson is responsible for planning, coordinating and overseeing production of project construction documents. He works closely with clients to ensure that the programmatic requirements are met, as well as the budget and schedule.

Bachelor of Arts in Environmental Design, Montana State University, Bozeman, Montana, 2003

Bachelor of Arts in Psychology, University of Colorado, Boulder, 1995

REPRESENTATIVE EXPERIENCE, partial list

Aspire Public School Rosa Parks Academy, Stockton, CA

Project Manager for the campus completion project, including the addition of a new freestanding multi-purpose building on the elementary school site. Rosa Parks Academy is the first OPSC funded, DSA approved, new charter school in the State of California. The elementary school accommodates 350 students in grades K-5.

Aptos Middle School, SFUSD Measure A Bond Project, San Francisco, CA

Job Captain for \$14 Million Middle School Modernization project. The scope of work includes ADA upgrades, elevator addition, and fire life safety upgrades. This project, currently completed, is part of the State School Facilities Program.

Francis Scott Key Elementary School, SFUSD Measure A, San Francisco, CA

Job Captain for \$8 Million Elementary School Modernization project. The focus of work is ADA and fire life safety upgrades. This modernization project is part of the State School Facilities Program.

Downtown High School, SFUSD Measure A, San Francisco, CA

Job Captain for \$7 Million High School Modernization project. The focus of work is exterior and interior ADA upgrades, restroom reconstruction, elevator addition, and fire life safety upgrades. Additionally, there is a new kitchenette in the teachers' lounge, and custom graphic way finding signage throughout the facility. This modernization includes the upgrade of nineteen classrooms and specialty spaces to support school's uniquely challenging curriculum, while creating a safe, accessible and welcoming environment to the community.

San Carlos School District Heather Elementary Upgrades, San Carlos, CA

Project Manager for various program upgrade projects at Heather Elementary School, including a multi-purpose facility upgrade, new classroom for SMARTE afterschool program, and portable classroom for the pre-school program. Heather Elementary is a public charter school serving students in grades Kindergarten through grade four on an eleven acre campus.

San Carlos School District Tierra Linda Pre-K Addition, San Carlos, CA

Project Manager for the addition of a pre-school program on the Tierra Linda campus. The new building will utilize modular construction and include two pre-kindergarten classrooms, four administrative office spaces, adult and pre-k restroom facilities, and a break/meeting room with kitchenette.

Aspire Langston Hughes & Aspire Port City Academy Stockton, CA

Job Captain for K-12 charter school campus, serving over 1000 students. The combined campus includes approximately 74,000 SF in five classroom buildings, and a large multi-purpose/gymnasium building surrounding a central quad. The campus program accommodates 40 classrooms and 9 specialty rooms that include science labs, computer labs, libraries, and a writing lab.
